- The **Regional Medical Supplies Catalogue List** identifies the items funded by **Home and Community Care Support Services North East** that are available to eligible patients who are authorized for Home and Community Care nursing services as per applicable policies.
- If different products are requested, an automatic substitution policy may be initiated to provide the equivalent product as identified within this list.
- The Home and Community Care Support Services North East is not obligated to fund or provide any items that are not identified on this list.
- Home and Community Care Support Services North East-funded nurses are expected to be trained on the supplies identified on this list, and use the supplies in alignment with the manufacturers' recommendations.

DRESSINGS, BANDAGES, TAPE, COMPRESSION & WRAPS

CHRIS Order Code	Description	Brand Name	Manufacturer Code	Size	APO	Weekly Max	Notes
GAUZE, SPONGES & PACKING: Woven gauze has a loose, open weave, which allows fluids from the wound to be absorbed into the fibers, wicked away, or passed through into other absorbent materials in the wound's dressing. Woven gauze shouldn't be cut and placed in a wound because loose fibers (lint) may get lost in the wound and delay healing. Nonwoven gauze consists of fibers pressed together to resemble a weave, which are stronger, bulkier, and softer than woven pads and provides improved wicking and greater absorbent capacity.							
ROLL BANDAGES: Knitted stretch gauze in roll configuration used as secondary dressing for limbs and to hold dressings in place. Includes sterile and non-sterile.							
SDR-0020	Sterile Small Woven Gauze 2" Roll	Gazetex	Derma Sciences DUP9321	2.25" x 3 yards 5.7 cm x 2.7 m	Y	7	Gazetex bandage rolls are washed, low-linting woven gauze rolls; 6-ply. These bandages are used for wrapping or packing large and deep wounds. When used as a primary dressing, the dressing provides fast wicking, absorbency, and aeration. When used as a secondary dressing, the dressing provides additional cushioning and comfort. Does not contain natural rubber latex
SDR-0021	Sterile Large Woven Gauze 4" Roll	Gazetex	Derma Sciences DUP9322	4.5" x 4 yards 11.4cm x 3.7m	Y	7	
SDR-0007	Conforming Stretch Bandage Wrap 2" (Roll)	Duform	Derma Sciences DUP75102	2" x 4.1 yards 5 cm x 3.75 m	Y	7	Synthetic knitted stretch bandage ideal as a secondary dressing. Non-Sterile
SDR-0008	Conforming Stretch Bandage Wrap 4" (Roll)	Duform	Derma Sciences DUP75104	4"x 4.1 yards 10cm x 3.75m	Y	7	
SDR-0060	Conforming Cotton Bandage 4" (Roll)	Dutex	Derma Sciences DUP76783	4" x 4.1 yards 10cm x 3.75m	Y	7	Cotton, 2 ply woven bandage ideal as a secondary dressing. Non-stretch and Non-sterile
DRESSINGS AND PACKING: Sterile dressing products to cover surgical incisions to control bleeding, absorb exudate, provide protection, and non-sterile products to secure primary dressings in place.							
SDR-0013	Oval Eye Pad Non-woven Sterile	Surecare	Derma Sciences DUP82911	1-5/8" x 2-5/8" 4 x 6.5 cm	Y	7	
SDR-0001	Abdominal Pad Sterile 5"x9"	Dupad	Derma Sciences DUP87059	5" x 9" 12.7 x 22.8 cm	Y	7	Non-woven; non-adherent
SDR-0002	Abdominal Pad Sterile 8"x10"	Dupad	Derma Sciences DUP87810	8" x 10" 20 x 25 cm	Y	7	Non-woven; non-adherent
SDR-0003	Gauze Sterile Woven 2"x2" (2 per Pack)	Ducare	Derma Sciences DUP82212	2" x 2" 5 x 5 cm	Y	14 Packs of 2	Cotton, 12 Ply, Pack of 2
SDR-0004	Gauze Sterile Woven 4"x4" (2 per Pack)	Ducare	Derma Sciences DUP82408	4" x 4" 10 x 10cm	Y	14 Packs of 2	Cotton, 8 Ply, Pack of 2
SDR-0017	Sterile Packing Plain 1/4" (Bottle)	PAK-ITS	Derma Sciences DUP59120	1/4" x 5 yards 0.64cm x 4.5m	Y	2	Single-ply ribbon gauze strips that can be used dry to absorb drainage in exuding wounds or soaked with a medication of choice. A secondary dressing is needed to hold the strips in place and to protect the wound from outside contaminants. (Bottles not for use at clinic - See single use packs below).
SDR-0018	Sterile Packing Plain 1/2" (Bottle)	PAK-ITS	Derma Sciences DUP59220	1/2" x 5 yards 1.27cm x 4.5m	Y	2	
SDR-0019	Sterile Packing Plain 1" (Bottle)	PAK-ITS	Derma Sciences DUP59320	1" x 5 yards 2.54cm x 4.5m	Y	2	

CHRIS Order Code	Description	Brand Name	Manufacturer Code	Size	APO	Weekly Max	Notes
SDR-0022	Sterile Gauze Packing Cotton 2x36"	PAK-ITS	Derma Sciences DUP564036	2" x 36" 5 cm x 90 cm	Y	3	
SDR-0088	Sterile Gauze Packing Cotton Single Use 1/4"	PAK-ITS	Derma Sciences DUP561036	1/4" x 36" 0.64 x 90cm	Y	3	
SDR-0089	Sterile Gauze Packing Cotton Single Use 1/2"	PAK-ITS	Derma Sciences DUP4853	1/2" x 54" 1.3 x 137cm	Y	3	
SDR-0090	Sterile Gauze Packing Cotton Single Use 2"	PAK-ITS	Derma Sciences DUP59420	2" x 54" 5 cm x 4.5m	Y	3	
SDR-0023	Sterile Gauze Packing Cotton Fan Folded 2x72"	PAK-ITS	Derma Sciences DUP4869	2" x 72" 5 cm x 182 cm	Y	3	
SDR-0064	Sponge Synthetic Sterile Non-Woven 2"x2" (2 per Pack)	DuSoft	Derma Sciences DUP84122	2" x 2" 5 x 5 cm	Y	14 Packs of 2	Synthetic, 4 Ply, Pack of 2
SDR-0065	Sponge Synthetic Sterile Non-Woven 4"x4" (2 per Pack)	DuSoft	Derma Sciences DUP84144	4" x 4" 10 x 10cm	Y	14 Packs of 2	Synthetic, 4 Ply, Pack of 2
SDR-0076	Sponge Synthetic Non-sterile Non-Woven 4"x4"	DuSoft	Derma Sciences DUP94144	4" x 4" 10.2 x 10.2 cm	Y	1 Pack of 200	Synthetic, 4 Ply, Pack of 200
TRACHEOTOMY / DRAIN SPONGES: An added fenestration makes these sterile sponges with pre-cut notches ideal for dressing around a tracheostomy tube or any type of tube, IV line/PICC line. Available in a soft 6 ply non-woven or in standard 12 ply gauze. The non-woven sponges provide superior absorption and are low-linting, fast-wicking, and non-adherent to wound beds. The woven gauze sponges are ideal for when natural breathability is desired. Does not contain natural rubber latex.							
SDR-0055	Drain Gauze Sponge Tracheostomy Sterile Woven 4"x4"	Ducare	Derma Sciences DUP82910	4" x 4" 10 x 10cm	Y	14	Woven, 12 Ply, Pack of 1
SDR-0058	Drain Sponge Sterile Non-woven 4x4	DuSoft	Derma Sciences DUP84916	4" x 4" 10 x 10cm	Y	14 Packs of 2	6 Ply Non-woven, Pack of 2
SOT-0036	Drain Sponge Sterile Non-woven 2x2	DuSoft	Derma Sciences DUP84918	2" x 2" 5 x 5 cm	Y	14 Packs of 2	6 Ply Non-woven, Pack of 2
SOT-0024	Drain Sponge Antimicrobial Sterile Non-woven 4x4	Excilon	Covidien Z7088	4" x 4" 10 x 10cm	Y	14 Packs of 2	PHMB, 6 Ply Non-woven, Pack of 2
TAPES & SECUREMENT: Medical and surgical tapes used as a securement aid in dressing or tubings (NG, IV, Foley, etc.).							
SDR-0039	Non Allergenic Self-Adhesive Dressing Retention Tape 2"	Ultrafix	Derma Sciences DUP62036	2" x 1 yrd 5 cm x 1 m	Y	7 m	A non-sterile and non-woven fixative tape that is breathable and gentle to the skin. Custom cut by metre lengths
SDR-0040	Non Allergenic Self-Adhesive Dressing Retention Tape 4"	Ultrafix	Derma Sciences DUP62037	4" x 1 yrd 10 cm x 1 m	Y	7 m	A non-sterile and non-woven fixative tape that is breathable and gentle to the skin. Custom cut by metre lengths
SDR-0048	Montgomery Straps and Ties	Montgomery	Derma Sciences DUP97991	18 cm x 28 cm	Y	1	Non-sterile, non-woven

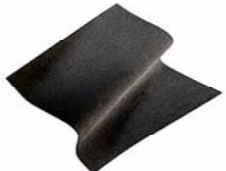

CHRIS Order Code	Description	Brand Name	Manufacturer Code	Size	APO	Weekly Max	Notes
SDR-0086	White Surgical Tape 1" Single Use Roll	Transpore (or equivalent)	3M 1534S-1 (or equivalent)	1" x 1.5 yard 2.5 cm x 1.3 m	Y	1	Universal hypoallergenic tape can be used for all applications.
SDR-0087	Blue Silicone Tape 1" Single Use Roll	Micropore S	3M 2770S-1 (or equivalent)	1" x 54" 2.5 cm x 1.3 m	Y	1	Only order for patients with very fragile at risk skin who react to SDR-0086 1" White Surgical Tape
SDR-0037	Wound Closure Strip 1/2" (6 Strips) Sterile	Primaflex	priMED Medical PM3-71241	1/2" x 4" 12 x 100 mm	Y	2 Packs	6 Strips per pack
SDR-0038	Wound Closure Strip 1/4" (3 Strips) Sterile	Primaflex	priMED Medical PM3-71431	1/4" x 3" 6 x 75 mm	Y	2 Packs	3 Strips per pack
BANDAGES & WRAPS: Materials that are dry woven or non-woven and may stretch and conform to body contours. Fabric composition may include cotton, polyester, rayon or nylon. They function for cleansing, packing or to provide absorption as a second layer or dressing, to hold a wound cover in place, to apply pressure or to cushion a wound. Some are sterile or non-sterile in bulk and may be adhesive. Other uses include securing IVs and splints and providing mild compression/support for strains, sprains and edema.							
SDR-0027	Tubular Net Elastic Bandage - Fingers/Toes/Small Wrist	Medline Elastic Net	NONNET02	7 2/3" 19.5 cm	Y	2 x 1 metre	Non-adhesive and holds dressing/devices securely in place while allowing freedom of movement. Roll of 25 yards cut to 1 meter lengths
SDR-0083	Tubular Net Elastic Bandage - Wrist & Elbow	Medline Elastic Net	NONNET03	9 1/3" 23.7 cm	Y	2 x 1 metre	
SDR-0028	Tubular Net Elastic Bandage - Elbow & Arm	Medline Elastic Net	NONNET04	11 2/3" 29.6 cm	Y	2 x 1 metre	
SDR-0029	Tubular Net Elastic Bandage - Knee & Thigh	Medline Elastic Net	NONNET05	12 3/8" 31.4 cm	Y	2 x 1 metre	
SDR-0084	Tubular Net Elastic Bandage - Shoulder Hip Thigh	Medline Elastic Net	NONNET06	17" 61 cm	Y	2 x 1 metre	
SDR-0030	Tubular Net Elastic Bandage - Chest Back Perineum Axilla	Medline Elastic Net	NONNET07	28 2/3" 72.8 cm	Y	2 x 1 metre	
SDR-0085	Tubular Net Elastic Bandage - Chest Region Large	Medline Elastic Net	NONNET08	31 1/3" 79.6 cm	Y	2 x 1 metre	
SDR-0031	Tubular Net Elastic Bandage - Chest Region XL	Medline Elastic Net	NONNET09	35" 88.9 cm	Y	2 x 1 metre	Non-adhesive and holds dressing/devices securely in place while allowing freedom of movement. SPECIAL ORDER ITEM - May take up to 5 days for stock.
SDR-0035	Tubular Net Elastic Bandage - Chest Region XXL	Medline Elastic Net	NONNET10	41" 93.1 cm	Y	2 x 1 metre	

CHRIS Order Code	Description	Brand Name	Manufacturer Code	Size	APO	Weekly Max	Notes
SCM-0003	Mesh Pants XL / XXL	Wings	Cardinal Health Z707A	40"-56"	Y	1	Incontinence supplies are not funded as per policy. These mesh pants are only authorized for patients requiring this product as a means of containing wound care dressings to coccyx, perineal area, etc.
SCM-0004	Mesh Pants Large / XL	Wings	Cardinal Health Z706A	32"-42"	Y	1	
SCM-0005	Mesh Pants Small / Medium	Wings	Cardinal Health Z705A	22"-32"	Y	1	
SDR-0068	Multipurpose Tubular Elastic Bandage Size C	Reliamed	Cardinal Health ZG275TB	2.75" x 36"	Y	2	- Limb sizes C through G available. Other sizes may available only as a exception item special order with approval. Sizes intended as a guideline only and should be used in conjunction with existing clinical protocols that consider physiological state and wound and skin condition. - Order in 1 yard lengths (36") - If overlapped, applies pressure of 10-15 mm Hg - Can be washed (gentle cycle & air dry) and reused multiple times - Contains latex
SDR-0069	Multipurpose Tubular Elastic Bandage Size D	Reliamed	Cardinal Health ZG30TB	3" x 36"	Y	2	
SDR-0070	Multipurpose Tubular Elastic Bandage Size E	Reliamed	Cardinal Health ZG35TB	3.5" x 36"	Y	2	
SDR-0071	Multipurpose Tubular Elastic Bandage Size F	Reliamed	Cardinal Health ZG40TB	4" x 36"	Y	2	
SDR-0072	Multipurpose Tubular Elastic Bandage Size G	Reliamed	Cardinal Health ZG45TB	4.5" x 36"	Y	2	
SVS-0003	High Stretch Elastic Bandage Non-Latex 4"	Dusor	Derma Sciences DUP71414LF	4" x 5 yards	Y	1*	
SVS-0004	High Stretch Elastic Bandage Non Latex 6"	Dusor	Derma Sciences DUP71416LF	6" x 5 yards	Y	1*	*May order 2 for initial order only if needed. Non-Sterile
COMPRESSION WRAPS: Short Stretch multi-layer elastic stretch bandage system with limited extensibility (less than 100%) for use to provide moderate to high compression							
SVS-0006	2 Layer Compression System 35-40mmHg	Coban 2	3M 2094	Each	Y	2	2 Rolls - Comfort layer and compression layer. Ideal for majority of patients with venous leg ulcers, lymphedema and other conditions where compression bandage therapy is appropriate.
SVS-0007	2 Layer Compression System 25-30 mmHg	Coban 2 Lite	3M 2794	Each	Y	2	2 Rolls - Comfort layer and compression layer. Designed to be more comfortable for patients less tolerant of compression bandages.
SVS-0009	Tubular Elastic Compression Small Navy Stripe	EdemaWear	CA600001	Each Pair (2)	Y	1/Month	Up to 2 Pair at admission then 1 Pair per month as needed 15-20 mmHg; Air-permeable; Can be cut Small (Navy): Up to 18"/45cm circumference (Foot/Calf/Arm) Medium (Yellow): Up to 30"/75cm circumference (Knee/Thigh/Arm) Large (Red): Up to 46"/115cm circumference (Thigh/Torso)
SVS-0010	Tubular Elastic Compression Medium Yellow Stripe	EdemaWear	CA960001	Each (1)	Y	1/Month	
SVS-0011	Tubular Elastic Compression Large Red Stripe	EdemaWear	B120L01	Each (1)	Y	1/Month	

CHRIS Order Code	Description	Brand Name	Manufacturer Code	Size	APO	Weekly Max	Notes
OTHER & SPECIALTY:							
SCM-0019	Blue Absorbent Pad 23"x24"	Cardinal Health	Cardinal UPSMD2324	23" x 24"	Y	1/Visit	Incontinence supplies are not funded as per approved policy. This product is authorized only for patients for containment of drainage or for methotrexate administration in-home/clinic ONLY. Approved clinics may order in bulk.
DRESSING KITS:							
SDR-0005	Dressing Tray Kit - Disposable Single Use	MED-Rx	CHS 85-4009	Each Kit	Y	1	For catheter treatments only (PNT or PICC). Not for use in wound care.
3 Compartment 1200 CC Outer Tray				1			
Rayon Cotton Balls Large Absorbent				6			
Gauze 4" x 4" - 8 Ply				4			
4" Plastic Transfer Forcep				3			
Absorbent Towel - 3 Ply				1			
CSR Sterile Field Towel				1			
Waste Bag with Tie				1			

WOUND CARE

CHRIS Order Code	Description	Brand Name	Manufacturer Code	Size	APO	Weekly Max	Notes
<p>Home and Community Care Support Services North East-funded professional nurses are required to be trained on all wound care supplies that are funded. Nurses are expected to use the products in alignment with defined Wound Pathways and the manufacturer's product recommendations for use, contraindications, wear time, etc.</p>							
<p>ABSORPTIVES: Multi-layer wound covers that provide either a semi-adherent quality or a non-adherent layer, combined with highly absorptive layers of fibers, such as cellulose, cotton or rayon. Designed to minimize adherence to the wound and manage exudate. They may be used as a primary or secondary dressing to manage surgical incisions, lacerations, abrasions, burns, donor or skin graft sites, or any exuding wound.</p>							
SWC-0107	Absorbent Dressing 4"x6"	Mesorb	Mölnlycke 677201	4" x 6" 10 x 15 cm	Y	7	
SWC-0108	Absorbent Dressing 6"x8"	Mesorb	Mölnlycke 677601	6" x 8" 15 x 20 cm	Y	7	
SWC-0109	Absorbent Dressing 8"x12"	Mesorb	Mölnlycke 677801	8" x 12" 20 x 30 cm	Y	7	
SWC-0142	Super-Absorbent Dressing 4"x6"	Mextra Super-absorbent	Mölnlycke 610100	4" x 6" 10 x 15 cm	Y	4	<p>- For best result, the pad should overlap the dry surrounding skin by at least 2 cm. - May be left in place for several days. The dressing should be changed according to the clinical condition of the wound, or when saturated.</p> 
SWC-0143	Super-Absorbent Dressing 6"x8"	Mextra Super-absorbent	Mölnlycke 610300	6" x 8" 15 x 20 cm	Y	4	
SWC-0144	Super-Absorbent Dressing 8"x12"	Mextra Super-absorbent	Mölnlycke 610500	8" x 12" 20 x 30 cm	Y	4	
<p>GELLING FIBER & ANTIMICROBIAL SILVER GELLING FIBER DRESSINGS: The products have a "primary mode of action" to absorb wound exudate and maintain a moist wound environment • Converts to a solid gel when activated by moisture • Includes synthetic gelling fiber dressings with and without silver antimicrobial properties • Supports autolytic debridement • Best for moderate amounts of exudate • Should not be used on dry wounds.</p>							
SWC-0150	Gelling Fiber Dressing 4"x4"	Aquacel Extra	ConvaTec 420672	4" x 4" 10 x 10 cm	Y	4	 
SWC-0151	Gelling Fiber Dressing 6"x6"	Aquacel Extra	ConvaTec 420673	6" x 6" 15 x 15 cm	Y	4	
SWC-0106	Gelling Fiber Ribbon 1"x18"	Aquacel	ConvaTec 403770	1" x 18" 2 x 45 cm	Y	4	
SWC-0152	Gelling Fiber Antimicrobial Silver Dressing 4"x4"	Aquacel Ag Extra	ConvaTec 420676	4" x 4" 10 x 10 cm	Y	4	
SWC-0153	Gelling Fiber Antimicrobial Silver Dressing 8"x12"	Aquacel Ag Extra	ConvaTec 420679	8" x 12" 19 x 29 cm	Y	4	
SWC-0032	Gelling Fiber Antimicrobial Silver Impregnated Ribbon 1"x18"	Aquacel Ag	ConvaTec 403771	1" x 18" 2 x 45 cm	Y	4	

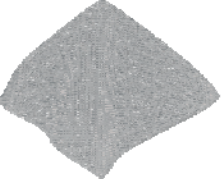

CHRIS Order Code	Description	Brand Name	Manufacturer Code	Size	APO	Weekly Max	Notes
ALGINATES & ANTIMICROBIAL SILVER ALGINATE DRESSINGS: Non-woven, non-adhesive pads and ribbons composed of seaweed derivatives • Indicated for wounds with moderate to heavy exudate, such as pressure ulcers, infected wounds, diabetic ulcers and venous insufficiency ulcers • Has hemostatic capabilities • Requires a secondary dressing • Should not be used on dry wounds • Lower tensile strength – care needed when packing into narrow deep sinuses • Autolytic debridement of sloughy wounds							
SWC-0036	Alginate Dressing 4"x4"	Tegaderm	3M 90112	4" x 4" 10 x 10 cm	Y	3	
SWC-0120	Antimicrobial Silver Alginate Dressing	Silvercel	KCI Medical CAD011	4.3" x 4.3" 11 x 11 cm	Y	3	
SWC-0154	Antimicrobial Silver Rope Alginate Dressing	Silvercel	KCI Medical CAD7230	2.5 x 30.5cm	Y	3	
ANTIMICROBIALS & SILVER: Broad spectrum topical antimicrobials to reduce localized bacteria. Indicated to help reduce the risk of infection in partial- and full-thickness wounds, over percutaneous line sites and surgical incisions, or around tracheostomies. The ability to handle exudate depends on the characteristics and composition of the product. Does not replace systemic antibiotics for deeper tissue infections. Not to be used if known hypersensitivities to any product components.							
SWC-0034	Non-adherent Antiseptic Impregnated Gauze 4"x4"	Bactigras	Smith & Nephew 66003650	4" x 4" 10 x 10 cm	Y	4	For adjunctive treatment and prevention of infection in skin loss lesions, including wounds, burns and ulcers 
SSP-0003	Ointment with Iodine 10Gr Tube	Iodosorb	Smith & Nephew 66060630	10 Gram Tube	Y	1	Cadexomer Iodine should not be used in patients with known or suspected iodine sensitivity, history of any thyroid disorder, or pregnant or lactating women 
SDR-0078	Non-adhesive Povidone-Iodine Dressing 2"x2"	Inadine	KCI Medical P01481	2" x 2" 5 x 5 cm	Y	3	10% Povidone Iodine; equivalent to 1.0% available iodine 
SDR-0079	Non-adhesive Povidone-Iodine Dressing 3.75"x3.75"	Inadine	KCI Medical P01512	3.75 x 3.75" 9.5 x 9.5 cm	Y	3	10% Povidone Iodine; equivalent to 1.0% available iodine
SWC-0119	Silver Antimicrobial Barrier Dressing Non-Absorbent 4"x4"	Acticoat Flex 3	Smith & Nephew 66800399	4" x 4" 10 x 10cm	Y	3	Not compatible with oil-based products, such as petrolatum 
SWC-0156	Antimicrobial Silver Mesh	Acticoat Flex 7	Smith & Nephew 66800397	4" x 5" 10 x 12.5cm	Y	1	Up to 7 day wear time. Not to be ordered with dressing changes more frequently than Q3 days. Can be cut to fit.

CHRIS Order Code	Description	Brand Name	Manufacturer Code	Size	APO	Weekly Max	Notes	
SWC-0010	PHMB Antimicrobial Gauze Square 4"x4"	Curity	Cardinal Health Z2533	4" x 4" 10.2 x 10.2 cm	Y	7	Impregnated with 0.2% PHMB; 12 Ply	
SWC-0112	PHMB Antimicrobial Non-Woven Sponges 4"x4"	Kendall	Cardinal Health Z8044AMD or equivalent	4" x 4" 10.1 x 10.1 cm	Y	7	Impregnated with 0.2% PHMB

SWC-0145	Silver Non-Adhesive Pad Dressing	PolyMem Silver	1044	4.25" X 4.25" 10.8 x 10.8 cm	Y	2	Cleanses, fills, absorbs and moistens wounds. Combined primary/secondary dressing or as a secondary dressing. Can be cut to size. MAX is a thicker PolyMem configuration for wounds with heavier drainage or when longer wear time is desired.	
SWC-0146	Silver Non-Adhesive Pad Dressing (MAX)	PolyMem MAX Silver	1045	4" X 4" 10 x 10 cm	Y	2		
COMPOSITE & MULTIFUNCION DRESSINGS: Multilayered, combination dressings to provide multiple functions, such as a bacterial barrier, absorption and adhesion. Usually, they are comprised of multiple layers and incorporate a semi- or non-adherent pad that covers the wound. Some are appropriate for autolysis. May also include an adhesive border of non-woven fabric tape or transparent film. Composite dressings can function as either a primary or a secondary dressing on a wide variety of wounds.								
SWC-0147	Non-Adhesive Pad Dressing	PolyMem	5044	4" x 4" 10 x 10 cm	Y	2	Cleanses, fills, absorbs and moistens wounds. Combined primary/secondary dressing or as a secondary dressing. Can be cut to size. - MAX is a thicker PolyMem configuration for wounds with heavier drainage or when longer wear time is desired.	
SWC-0148	Non-Adhesive Pad Dressing (MAX)	PolyMem MAX	5045	4.25" x 4.25" 10.8 x 10.8 cm	Y	2		
SWC-0090	Protease Inhibitor Dressing with Collagen	Promogran	KCI M772028	28 cm ² Hexagonal	Y	2	Review manufacturer's information regarding contraindications. Protease inhibitor should be discontinued if there is no progression towards wound healing (less than 10% healing in 3 weeks).	
SWC-0158	Protease Inhibitor Dressing with Silver	Promogran Prisma	KCI PS2028	28 cm ² Hexagonal	Y	2		
SVS-0008	Non-Elastic Zinc Paste Bandage	Primer	Derma Sciences GL300-1	7.6 cm x 9 m	Y	2	A gauze bandage that has been evenly impregnated with a non-hardening paste of zinc oxide. Ideal for managing: venous ulcers, lymphatic edema, minor sprains, strains, fractures and thrombophlebitis. Contains no gelatin which prevents the hardening or caking of the bandage. Made without preservatives and with non-raveling thread locked gauze.

<p>CLEAR ACRYLIC DRESSINGS: Transparent film contact layer and clear, acrylic polymer pad, topped with breathable, waterproof film. Enables clinicians to monitor small to moderately exuding wounds without changing the dressing • Supports autolytic debridement • Extended wear time • Skin graft donor sites • Skin tears and pre-tibial lacerations • Post-operative wounds • First (superficial thickness) and second (partial thickness) degree burns and abrasions • Do not cut acrylic pad</p>							
SWC-0139	Absorbent Clear Acrylic Small Oval 7.6x9.5cm	Tegaderm	3M 90800	3 in. x 3-3/4 in. 7.6 x 9.5 cm	Y	1	For pressure ulcers, skin tears and other low to moderately exuding wounds. Dressing should overlap the wound margins by at least 3/8" (1 cm).
SWC-0140	Absorbent Clear Acrylic Medium Oval 11x12cm	Tegaderm	3M 90801	4-3/8 in. x 5 in. 11.1 x 12.7 cm	Y	1	
<p>FOAMS: Foam dressings are sheets and other shapes of foamed polymer solutions (most commonly polyurethane) with small, open cells capable of holding fluids. They may be impregnated or layered in combination with other materials. Absorption capability depends on thickness and composition. The area in contact with the wound surface is non-adhesive for easy removal. Available with an adhesive border and/or a transparent film coating that acts as a bacterial barrier. Indicated for partial- and full-thickness wounds. Used on lightly- to heavily-exudating wounds, depending on product. Occlusive foams without silver should not be used on infected wounds.</p>

CHRIS Order Code	Description	Brand Name	Manufacturer Code	Size	APO	Weekly Max	Notes
<p>HYDROCOLLOIDS: Wafers, powders or pastes composed of gelatin, pectin or carboxymethylcellulose. Moisture-retentive dressing, contributes to autolytic debridement. Creates occlusive barrier against bacterial invasion. Absorption capability depends on thickness and composition. Useful on areas that require contouring, such as heels and sacral ulcers. Indicated for partial and full thickness wounds with or without necrotic tissue. Characteristic odour may accompany dressing change and should not be confused with infection. Caution when used on fragile skin and should not be used on heavily draining or infected wounds.</p>

SWC-0053	Hydrocolloid Transparent Oval	Comfeel Plus Transparent	Coloplast 33283	3.5" x 4" 9 x 11 cm	Y	3	
<p>HYDROGEL: Polymers with high water content designed to absorb a small amount of exudate, prevent drying of the wound bed and maintain a moist healing environment. The high moisture content serves to rehydrate wound tissue. Available in gels, solid sheets or embedded into gauze. Can decrease pain. Indicated for partial and full-thickness wounds, wounds with necrosis, minor burns and radiation tissue damage. May require a secondary dressing. Solid sheets should not be used on infected wounds.</p>							
SWC-0023	Hydrogel (Low Pectin, Low Saline)	Intrasite Gel	Smith & Nephew 7311	15 g	Y	3	
<p>FILMS & MEMBRANES: Transparent film dressings are polymer membranes of varying thickness coated on one side with an adhesive. They are impermeable to liquid, water and bacteria but permeable to moisture vapour and atmospheric gases. Moisture vapour transmission rate (MVTR) varies from film to film. Can help reduce friction to susceptible skin (e.g. heels). Transparency allows visualization of the wound. Indicated for partial-thickness wounds with little or no exudate, wounds with necrosis, and as both a primary or secondary dressing. Also used to cover IV sites, donor sites, lacerations, abrasions and second-degree burns. Available in a wide variety of sizes, both sterile and in bulk. Should not be used on draining or infected wounds.</p>							
SWC-0072	Transparent Film Dressing 10x12cm	Tegaderm	3M 1626W	4" x 4.75" 10 x 12 cm	Y	3

NEGATIVE PRESSURE WOUND THERAPY (NPWT)

CHRIS Order Code	Description	Brand Name	Manufacturer Code	Size	APO	Weekly Max	Notes
<p>Negative Pressure Wound Therapy (NPWT): A therapeutic technique indicated for the application of continual or intermittent negative pressure wound therapy to an acute or chronic wound. The device may promote wound healing by the removal of fluids, including wound exudates, irrigation fluids, body fluids and infections materials. The therapy involves the controlled application of sub-atmospheric pressure to the local wound environment, using a sealed wound dressing connected to a vacuum pump. Equipment and supplies are time-limited as per approved policy.</p>							
<p>DISPOSABLE SINGLE-USE NPWT: The primary NPWT devices are to be single-use disposable items when clinically appropriate</p>							
<p>PICO Negative Pressure Dressing Kits</p>

OSTOMY SUPPLIES & ACCESSORIES

CHRIS Order Code	Description	Brand Name	Manufacturer Code	Size	APO	Weekly Maximum	Notes
<p>OSTOMY SUPPLIES & ACCESSORIES: Products such as ostomy pouches, skin barriers and accessories used in the care & management of urostomies, ileostomies and colostomies. Authorization for Home and Community Care Support Services North East-funded supplies as per approved Ostomy policy and only for short-term treatment to allow patient some time to coordinate private pay options, insurance coverage and ADP applications. Coloplast is the primary vendor.</p>							
<p>Ostomy Skin Barriers for 2 Piece System: Cut-to-fit flanges (also called "baseplates") that attach directly to the skin. Measure the stoma accurately and select a cut-to-fit barrier opening which fits comfortably around the stoma without actually touching it. Too large an opening will leave skin exposed and could lead to skin irritation.</p>							
SOS-0068	2 Piece Click Barrier Green Flat Cut-to-Fit	SenSura Mio Click	Coloplast 10502	Coupling/Flange 40 mm (1 9/16")	Y	5 / Week Maximum 10 per patient admission of any combination of sizes	Non-Convexity, Stoma size 10-35mm (3/8" - 1 3/8")

URINARY & DRAINAGE SUPPLIES

CHRIS Order Code	Description	Brand Name	Manufacturer Code	Size	APO	Weekly Maximum	Notes
<p>Urinary Supplies: Medical supplies that helps drain urine from the bladder. It is used by some patients who have had urological or gynecological surgery, or who have a condition that makes urination difficult. Home and Community Care Support Services North East-funded supplies may be authorized only while the patient is in need of nursing services. ODSP, social assistance, private insurance, DVA must be accessed as possible sources of funding on a long term basis as per approved policy. Most commonly used sizes are listed below. All other sizes (including pediatric) and coatings are available for special order only as per the Exception Item process.</p>							
<p>FOLEY CATHETERS: 2-way Foley (inflation and drainage) indwelling catheters. For short- or long-term catheter patients, the catheter should be the smallest size diameter that permits good urine flow. If a larger diameter was used to facilitate passage of blood clots, the size can be decreased by 2-4 Fr per catheter change until the optimal size is reached. Likewise, balloon sizes should be small, with 5 mL balloons, reserving the 30 mL only for bleeding episodes, usually postoperatively. Long term catheters (over 1 months use) often changed every 4 weeks. Patients with frequent blockage may need catheter changed every 2-3 weeks or more often.</p>

PROTECTIVE WEAR

CHRIS Order Code	Description	Brand Name	Manufacturer Code	Size	APO	Weekly Maximum	Notes
<p>PROTECTIVE WEAR: Personal protective equipment (PPE) is authorized for Home and Community Care Support Services North East staff to protect employees from exposure to workplace hazards as per policy. Service Providers are expected to provide their own personal protective equipment to their own staff to protect from infectious diseases. Service Providers may be provided PPE if handling hazardous chemicals/drugs for approved patients. Non-Sterile PPE may be authorized for contracted Service Providers <u>only</u> when the on-going patient-specific treatment requires protective wear be worn to minimize risk to patient as approved by the Care Coordinator. Clean PPE is standard in community care, and sterile PPE supplies are only to be authorized when treatments require a sterile technique as per approved policies or clinical guidelines.</p>
